## PLANÈTE ALIP

Created in 2017 by ALIP language school, Planète ALIP is an e-learning platform offering attractive activities to learn French online.

Videos, lessons, exercises, games and challenges will help you discover the culture and learn the key points of the language while having fun.

- 4 levels - more than 35 modules
- 5 weeks training per level + final test
- Statistics to assess your progress
- Personalised advice and follow up
- Training options: e-learning, blended learning

### Level 1 Faisons connaissance

You don't speak French and you want to get started? Learn the basics of the language: greet someone politely, introduce yourself and your family. Talk about your daily routine, your hobbies and interests, and get acquainted with other people.

### Level 2 Le monde autour de moi

Describe yourself and the world around you: the weather and landscapes, your home and town. Engage in simple conversations to perform your daily activities and purchases such as buying food, ordering in a restaurant.

### Level 3 Bienvenue à l'ALIP !

You are planning to stay in France for a while and you want this experience to be a success? Expand your knowledge of the language. Learn more about life in Paris, its districts, its annual events, its cafés and shops. Prepare yourself to meet Parisians, attend classes, go shopping, rent a place, communicate with the French administration and make new friends.

### Level 4 Tu fais quoi dans la vie ?

Take a tour of France. Discover its regions and natural resources. Learn more about its industries, listen to professionals talk about their jobs and get ready to work in a foreign country. Catering, fashion, art, media, and marketing are on the menu.
